Subject: RE: NH Soil Samples -- NJ Fingerprint
Attachments: 200225 Preliminary data for NJDEP Air Modelling.docx; 200225 Preliminary Data for NJDEP Air Modelling.xlsx

Hi Anjuli,

I am attaching two files with preliminary PFAS data for NJ soils for use inside of NJDEP and USEPA.

As of today, the data are reported in a manuscript tentatively accepted by a peer-reviewed journal. But, because the manuscript status is not yet formally accepted, I prefer to keep these data inside of our agencies as you have described. Sandra, Erica, Nidal or I all might be able to answer questions you might have.

Thanks—
John

Subject: [EXTERNAL] RE: NH Soil Samples -- NJ Fingerprint

Hi Anjuli,

Yes, I think this is doable. I will try to get back to you tomorrow.

John

Subject: NH Soil Samples -- NJ Fingerprint

Hello John,

I hope you are doing well!

I am reaching out because we are putting together our Air Dispersion Modeling PFAS proposal for our upper management, and we were hoping to include the soil locations to which you have found a NJ fingerprint. Ideally, we will like to show the locations with their corresponding concentrations. In terms of confidentiality, this presentation is for internal purposes only, and the presentation will not be shared outside of the NJDEP.

Please let me know if this is doable for you and your team. If the chemicals are CBI, we can just call them "NJ Fingerprint".

Thank you,

Anjuli Ramos-Busot
